

To whom it may concern

Orillia HHBC has sold ENDECK for a couple of years. So far any customers that have used the product have raved how great it looks even after a couple of seasons. With the many options in the market place this is one product I know I can sell with the confidence that ENDECK will meet or exceed our customers' expectations. National Forest has always had the product readily available when needed. Good luck with future sales.

All The Best
